Made of 100% responsibly sourced re-purposed materials, never mined or bringing harm to the planet

NECKLACES can be worn long, or double to be worn short

Necklaces are perhaps the most mystical and magical piece of jewelry in existence. Throughout history, they have held a special place in ceremonial and spiritual contexts. Necklaces can be seen as a power accessory— something that imparts the wearer with strength and energy to take on their day and take charge of their reality. Find your power with our diverse designs. Made of 100% responsibly sourced re-purposed materials, never mined or bringing harm to the planet.

Leather necklaces: Leather comes from sustainable cattle ranchers and is dyed with non-toxic earth friendly dye. Leather is available in black or chocolate.

BRACELETS Ladies: 7 ½", Men 8"

Our cuffs are inspired by the strength and beauty of nature. Just like you, our cuffs don't have to choose between being beautiful or bold, adventurous or reflective. Our designs reflect the balance of Mother Nature herself, so that you can harness her energy too! Made of 100% responsibly sourced repurposed materials, never mined or bringing harm to the planet.

CUFFS

Our cuffs are inspired by the strength and beauty of nature. Just like you, our cuffs don't have to choose between being beautiful or bold, adventurous or reflective. Our designs reflect the balance of Mother Nature herself, so that you can harness her energy too! Made of 100% responsibly sourced repurposed materials, never mined or bringing harm to the planet.

RINGS available in any size , half sizes available

Rings have adorned human hands since as far back as 2500 BC. In fact, the belief in our "ring finger" connecting a vein straight to one's heart has been around since the Ancient Romans and Egyptians. Our rings suit any style, (and any finger). They are great for stacked looks, or as one-off statement pieces. From delicate doves and daisies, to big and bold designs, there's certainly an Alkemie ring that's right for you. Made of 100% responsibly sourced repurposed materials, never mined or bringing harm to the planet.
